PRODUCT USE

All statements, usage recommendations, and technical information contained in this manual are based on tests or development that Griot's Garage has deemed reliable. However, many factors beyond Griot's Garage's control can affect the use and performance of this Griot's Garage product in a certain application, including conditions under which the Griot's Garage product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely in the user's knowledge and control, it is critical that the user evaluate the Griot's Garage product to determine whether it is suitable for a particular purpose and the user's method of application.

WARRANTY

- **Griot's Garage Lifetime Guarantee:** Griot's Garage will repair or replace any defective tool, without charge, due to faulty materials or workmanship for the working life of the tool, subject to certain exclusions below.
- Six Month Satisfaction Guarantee: We want you to enjoy our quality product and have fun with it! If you're not 100% satisfied for any reason within six months of purchase, return it to point of sale with proof of purchase for a full refund or credit.

EXCLUSIONS

- **Griot's Garage Lifetime Guarantee** does not cover damage caused by failure to follow recommended maintenance, misuse, alteration, or abuse. Normal wear and tear is not considered a defect, therefore part failure which may occur as the result of ordinary use is excluded from coverage.
- **Griot's Garage** is not responsible for any incidental or consequential damages.

DISCLAIMER

• Limitation of Liability: In no event shall the monetary liability of company exceed amounts that have actually been paid to company. Company shall not be liable for consequential, indirect, special, or incidental damages under any circumstances, even if advised in advance of the possibility of such damages.

AIR PULSE Blow Gun

⚠ SAVE ALL WARNINGS AND INSTRUCTIONS FOR FUTURE REFERENCE

Please read and understand this manual. It contains information that relates to personal protection of you and others.

IMPORTANT SAFETY INFORMATION

Please carefully read, understand, and follow all safety information in this manual prior to and during use of this tool. Keep these instructions handy for future reference.

INTENDED USE

The Griot's Garage Air Pulse Blow Gun is designed to be used as a cleaning tool. Do not exceed air pressures higher than 90 psi and always wear appropriate safety equipment. Use in any unapproved manner could lead to unsafe operating conditions.

EXPLANATION OF SIGNAL WORD CONSEQUENCES

Warning: Indicates a potentially hazardous situation which, if not avoided, may result in death or serious injury and/or property damage.

Caution: Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury and/or property damage.

Wear Proper Respiratory Protection

Do Not Discard In Household Waste

GENERAL AIR TOOL SAFETY WARNINGS

Warning: Please read, understand, and follow all safety information contained in these instructions prior to the use of this tool. Failure to follow the warnings and instructions may result in serious injury. The term "power tool" in the warnings refers to your Griot's Garage Air Pulse Blow Gun. Retain these instructions for future reference.

1. Work Area Safety

- a. Keep work area clean and well lit. Cluttered or dark areas invite accidents.
- **b.** Keep children and bystanders away while operating power tool. Distractions can cause you to lose control.

2. Personal Safety

- **a.** Practice safety requirements. Work alert, have proper attire, and do not operate tools under the influence of alcohol or drugs.
- **b.** Operators and other personnel must always wear protection for eyes, ears, and respiratory protection when in the work area or while operating this product. Follow your employer's safety policy for PPE's and/or ANSI Z87.1 or local/national standards for eyewear and other personal protective equipment requirements.
- **c.** The Air Pulse Blow Gun causes considerable noise pressure. Please wear hearing protection to avoid noise pressure. Please wear hearing protection to avoid potentially damaging sound exposure.
- **d.** Small particles may be whirled into the air during use. Wear appropriate goggles or glasses to prevent eye injuries.

POWER TOOL USAGE SAFETY

To reduce the risk of injury associated with pneumatic pressure and other mechanical hazards:

- a. **NEVER** point the Air Pulse Blow Gun towards the face, or body of yourself or anyone else.
- **b. NEVER** operate the Air Pulse Blow Gun with more than 90 psi.
- c. Keep Air Pulse Blow Gun out of reach of children.
- **d.** To reduce risk of injury, everyone using, installing, repairing, maintaining, changing accessories on, working near this tool must read and understand these instructions before performing any such task.
- e. This tool and its parts must not be modified.
- **f.** Always shut off air supply, release pressure and disconnect tool from air supply when not in use, before changing parts, or when making repairs.
- g. Whipping hoses can cause serious injury. Always check for damaged or loose hoses and fittings.
- **h.** When using cleaning fluids which need to be diluted, always strictly observe the manufacturer's instructions to ensure the dilution is correct.

PRIOR TO TOOL OPERATION

- **a.** The tool is intended to be operated as a handheld tool. It is always recommended that while using the tool, operators stand on a solid floor, in a secure position with a firm grip and footing.
- **b.** Before use, install appropriate 1/4" male plug quick connector that matches your system. We recommend a high-flow coupler for optimal performance.
- Caution: Use a constant, clean air supply that will give a measured air pressure at the tool of 75 to 90 psi when the tool is running with the lever fully depressed. It is recommended to use an approved 3/8" (10mm) hose with a 50' (15.24m) maximum length.
 - Minimum Air Consumption 5.3 CFM @ 75 PSI
 - Optimum Air Consumption 6.4 CFM @ 90 PSI
 - · Required Air Pressure 60-90 PSI(MAX)

Note: constant air rates vary depending on size and power of the air compressor.

USAGE

Interior Cleaning: Perfect for intense cleaning action addressing dirt and grime on vinyl, carpet, leather & cloth upholstery, and door panels.

Drying: Excellent for removing excess water from vehicle surface, grill, and trim components following a wash.

Pad Cleaning: Our recommended brush for cleaning knitted wool, microfiber, and foam buffing pads during use. Frequent blow-outs will help to maintain optimal pad weight and excessive build-up of polish and paint residue.
