

# MEET THE BOSS™ BEST OF SHOW SYSTEM

**BOSS** | BEST OF SHOW  
SYSTEM®

The **BOSS Best of Show System** is the pinnacle of car care. It features a foaming system, professional grade polishers, pads, and liquids developed to compliment one another so you can address virtually every paint care scenario. Bottom line... if you demand the best, reach for BOSS™

*Have fun in your garage!*

100% **GRIOT'S GARAGE** GUARANTEED

## BOSS™ FOAMING SYSTEM

This innovative system is ideal for every scenario from pre-correction surface preparation to maintenance of waxed or ceramic-coated paint. Used with contact washing or as a touchless method, our BOSS Foaming System prevents wash-induced scratches as it produces ultra-hydrophobic surface properties.

## BOSS™ PADS

Compared to our other foam pads, BOSS pads are thinner, lighter, and feature a cooling hole for longer pad life. They are available as 6", 5", 3" 2", and 1" systems. BOSS pads are weight-matched to the counterbalances in our polishers to ensure smooth operation, fast pad rotation, and supreme performance.

## BOSS™ POLISHERS

Professional grade machines built from the ground up to meet Griot's Garage Specifications. Intense focus was given to deliver best in class power, comfort and control. Robust features including precision cut gears, Variable Speed Trigger Throttle, Quick-Connect Power Cords, Powerful Motors, premium backing plate design, smooth-operation and encased in bodies which fit your hand like a glove.

## BOSS™ CREAMS

Developed in our labs in Indiana, our proprietary BOSS formulas use advanced sub-micron abrasives to effectively remove defects, imparting highly refined finishes. What you see is what you get, along with efficient buffing cycles and ultra-low dusting.
